DISCOVER

The Lagoon Greenway!
A public-private partnership between the Indian River County government and the Land Trust.

The Greenway is a trail system for hiking and bicycling through oak forests, over wetlands, and along the Indian River Lagoon.

It is located on the northeast corner of 8th Street, on Indian River Boulevard (at the blinking light).

Main Trail (under 1/2 mile) This wide trail begins at the trailhead-parking area and travels through oak and palm hammocks, and over two wetlands on its way to the Two-Mile Loop Trail.

Mini-Adventure Trail (under 1/4 mile) This narrow, uneven trail winds through a dense oak and palm forest, bringing you close to the native habitat of “Old Florida.”

Two-Mile Loop Trail This wide, grassy trail will take you around a large mangrove wetland forest, with intermittent views of the beautiful Indian River Lagoon.

Mangrove Boardwalk: A 1/4 -mile boardwalk extends from the end of the Main Trail to an observation deck on the Indian River Lagoon.

To report trail problems, or for questions, call the Indian River Land Trust at 772 794-0701.

EXPLORE

The Toni Robinson Waterfront Trail
Located south of the Wabasso Bridge on 79th Street off North US1. (look for the sign for Hobart Landing, the trailhead will be on your left)

The Toni Robinson Waterfront Trail was purchased by IRLT in 2009, and now totals 50 acres on the west side of the lagoon. The property contains oak trees, scrub forest, mangrove swamp, and beautiful views of the Indian River Lagoon.

The one-mile trail comprises a half-mile walk through an open canopy scrub habitat and oak forest to the mangroves. A half-mile loop walk on an impoundment trail includes a boardwalk through the mangroves with a dock that extends into the lagoon.

Note: There is active beekeeping on this property. Please keep a safe distance from the hives — the bees are working to make our world a great place.

Dogs are allowed but must be “scooped” and kept on leash. Please stay on marked trails. Enjoy the dock but please NO FISHING!
